

C9900-S4xx | Microsoft Windows 10 IoT Enterprise for Beckhoff Industrial PCs

With the launch of Microsoft Windows 10 Enterprise the use of modern operating systems has been consistently continued at Beckhoff. Windows 10 – just like Windows 7 – supports multi-touch operating concepts and makes the tile design come to life. Pricing is based on CPU classes, allowing Intel® Atom™ processors and processors in the mid-performance range to be offered at considerably lower prices.
