

Calmo M 2102 i5-7500T, 4GB, 120GB SSD, W10Pro

The reliable companion for demanding industrial applications

- integrated Fujitsu industrial mainboard
- fanless and robust housing
- suitable for rough and dusty environments
- Intel® processor technology
- developed and manufactured in Germany

Reliable and fail-safe hardware in professional environments is indispensable. With its fanless, compact housing and the high-quality Fujitsu industrial mainboards it is the first choice for rough environments. If you are searching for a system that is prepared for 7x24 hour operation and almost completely closed, you will successfully stop searching now. Only choose between embedded CPUs for low power consumption or Desktop CPUs for high power output. First class industrial IT components - developed and manufactured in Germany.
