

I(G)/SVB main switch

Part no. T5B-4-15682/I4/SVB-SW

Article no. 207247

IP 65

IP 65

Delivery programme

| Delivery programme | | | |
|---|------------------------------|--------|---------------------------------|
| | | | Without Emergency-Stop function |
| | | | With auxiliary contacts |

| Rated operational current | <i>l</i> e | Α | 25 |
|---|-------------------|----------------|---|
| Voltage per contact pair in series | | V | 24 |
| Control circuit reliability at 24 V DC, 10 mA | Fault probability | H _F | < 10 ⁻⁵ , < 1 fault in 100000 operations |

Notes

Notes For mechanical shock resistance: T3.../l... >12g
Applies to T0(3).../SVB: isolating characteristics to IEC/EN 60947 *U*for rated operational voltage up to 500 V AC

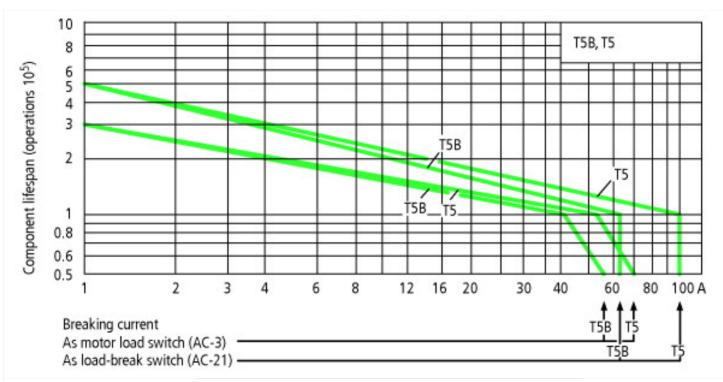

Applies to rated uninterrupted current $I_{\rm u}$ of the contact: with T5#4#8344/I5 max. 95 A

For terminal capacity solid, stranded and flexible:

T0(3), (6), (8)...: Maximum of 2 cross-section sizes difference admissible between 2 conductors

T5(B)-...: Maximum of 1 cross-section size difference admissible between 2 conductors

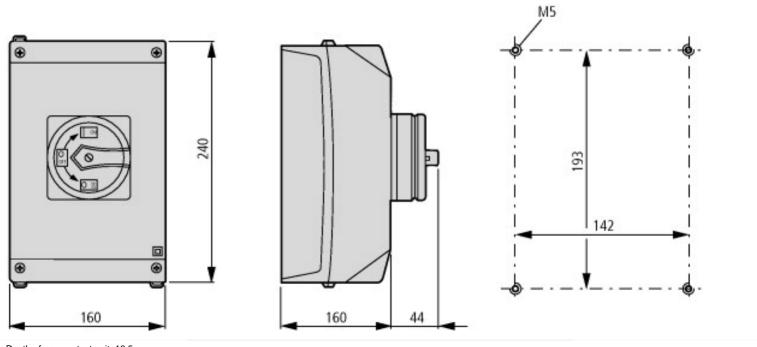

For type T8#3#8342/... the following applies: switching angle = 90° and flat connection = 1 busbar 25 x 5 or 2 busbars 20 x 3

For utilisation category AC-4 (extreme load: 100 % inching, reversing or plugging)

The blocked rotor current of the motor should not exceed the rated current of the switch for AC-21A to ensure a reasonable device lifespan.

Dimensions

Depth of one contact unit: 16.5 mm

The rotary switches T5B and T5 are of identical design but differ in their contacts.
