

## Thermocouple panel jack

### Model Standard thermoplastic

#### Design

Connector with housing of thermoplast and signal connections (sockets) in thermocouple compatible material.

#### Example of use

Equipping panels for multiple measuring circuits. Note that Pentronic's complete manufactured panels are equipped with different panel jacks.

#### Maximum temperature

200 °C

#### Signal connection

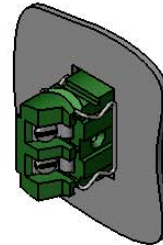

Screw terminals.  
Color code according to the IEC 60584-3.

#### Article number

Article no	Type
03-25040	K
03-55040	N
03-35040	T
03-45040	S and R
03-15040	J

#### Mounting

With supplied mounting kit.

#### Hole conditions

Plate thickness 2 to 3 mm.
