

Switch Cabinet Lamps

Series LL.. SK

Switch cabinet lamp 8, 14, 18, 30W, 230V, 50Hz
with attached door switch, socket, on / off switch, anti-interference capacitor,
mains connection and stickable through going wiring for shunting several
lamps, potential free output (closer) on both sides 4A max. load, e.g. for fan
control, door observation, side fastening for horizontal and vertical installation,
with installation screws, fits in switch cabinets from 600 mm width up
Approvals: CE, TÜV, ENEC

LL08-SK

8W, 230V 50Hz, 375x87x70mm(H,B,T),
fits from 600mm cabinet width up

LL14-SK

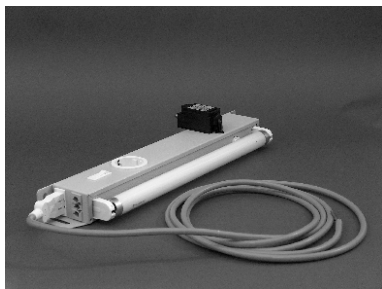

14W, 230V 50Hz, 450x96x70mm(H,B,T),
fits from 800mm cabinet width up

LL18-SK

18W, 230V 50Hz, 675x96x70mm(H,B,T)
fits in switch cabinets from 1000mm width up

LL30-SK

30W, 230V 50Hz, 1000x96x70mm(H,B,T)
fits in switch cabinets from 1200mm width up

LL08-SK-N

14W, 230V 50Hz, 375x87x70mm(H,B,T),
3m mains cable **orange**, fits in switch cabinets from 600mm width up

LL14-SK-N

14W, 230V 50Hz, 450x96x70mm(H,B,T),
3m mains cable **orange**, fits in switch cabinets from 800mm width up

LL18-SK-N

18W, 230V 50Hz, 675x150x70mm(H,B,T)
3m mains cable **orange**, fits in switch cabinets from 1000mm width up

LL30-SK-N

30W, 230V 50Hz, 1000x96x70mm(H,B,T)
3m mains cable **orange**, fits in switch cabinets from 1200mm width up

LL08-SK-V

8W, 230V 50Hz, 375x87x70mm(H,B,T),
0,6m connection cable **orange**, fits from 600mm cabinet width up

LL14-SK-V

14W, 230V 50Hz, 450x96x70mm(H,B,T),
0,6m connection cable **orange**, fits from 800mm cabinet width up

LL18-SK-V

18W, 230V 50Hz, 675x96x70mm(H,B,T)
0,6m connection cable **orange**, fits from 1000mm cabinet width up

LL30-SK-V

30W, 230V 50Hz, 1000x96x70mm(H,B,T)
0,6m connection cable **orange**, fits from 1200mm cabinet width up

Special designs and voltages see sheet A5.1

- **EVG version** interference reduction with electronic series device

Colours: RAL 7035 structure, smooth, other RAL-colours on request
