FRIEDHELM L O H GROUP

Base/plinth for modular FM distribution enclosures

Data sheet

SO 2910.200

to obtain a greater floor clearance or for cable entry. By folding down the side parts, screw-fastening of bases/plinths and cable routing is possible.

System punchings in the side parts for the installation of cable clamp rails and universal attachment.

Special assembly parts ensure quick and stable mounting with only one screw per side part on the corner piece. Captive nuts with earth claws on both sides make baying on the enclosure easier.

Height: 200 mm

Material: sheet steel

Surface finish: RAL 7022

for enclosure dimensions: W: 1000 x D: 400 mm
