# Door stay for escape routes – VX 8618.425

created: 01.02.2021 build on www.rittal.com/uk-en

## Product description

**Description:** In an emergency situation, conventional door stays could block the escape route. The stay is activated automatically by pressure, releasing the door in both directions. In conjunction with 180° hinges, this ensures that no escape routes are blocked by open doors in the event of an emergency.

**Supply includes:** Assembly parts

## Product description
