# Base/plinth trim panels, vented – VX 8620.090

created: 26.09.2019 on [www.rittal.com/com-en](http://www.rittal.com/com-en)

## Product description

**Description:** For venting the enclosure via the base/plinth. Specifically in applications such as power distribution where the enclosure gland plates are not used, this can be used to achieve a higher air throughput inside the enclosure. Various solutions to raise the roof and special roof plates with vent openings are also available for enclosure venting. With a 200 mm base/plinth height, one or two vented trim panels may optionally be used. Thanks to the complete symmetry of the base/plinth system VX, the trim panels may either be fitted at the front, rear or side on the base/plinth corner piece.

**Benefits:** Specifically in applications such as power distribution where the enclosure gland plates are not used, this can be used to achieve a higher air throughput inside the enclosure

**Material:** Sheet steel

**Colour:** RAL 9005

**Supply includes:** Assembly parts

**Note:** Various solutions to raise the roof and special roof plates with vent openings are also available for enclosure venting

## Product features

**To fit:** Width/depth: 600 mm

**Dimensions:** Height: 100 mm

**Packs of:** 2 pc(s).

**Weight/pack:** 1.3 kg
