

Product name	VEGAPULS 64
Model code	PS64.ACBYDCHXKMXXX
eID	DE77271756
Quantity	1

Radar sensor for continuous level measurement of liquids

Application area

The VEGAPULS 64 is a sensor for continuous level measurement of liquids. With small tanks or in case of narrow space the small process fittings offer special advantages. The very good signal focusing enables the use in vessels with many installations such as e.g. stirrers and heating spirals.

Your benefit

- Maintenance-free operation through non-contact measuring principle
- High plant available, because wear and maintenance-free
- Exact measuring results independent of process conditions

Price list: Standard-27/05/2019-DE-€

Measuring unit for lengths		Metre/Millimetre
Scope	A	Europe
Approval	C	ATEX II 1G, 1/2G, 2G Ex ia IIC T6
Antenna version / Second Line of Defense	B	with plastic horn antenna / without
Process fitting / Material	YD	Compression flange suitable for flanges 3" 150lb, DN80 PN16 / PP-GF30
Material / Seal / Process temperature	C	PP / PP / -40...+80°C
Electronics	H	Two-wire 4 ... 20 mA/HART
Supplementary electronics	X	without
Optional overvoltage protection		without
Housing / Protection	K	Plastic single chamber / IP66/IP67
Cable entry / Connection	M	M20x1.5 / Cable gland PA black (ø5-9mm), standard
Display/adjustment module PLICSCOM	X	without
Additional Equipment	X	without
Certificates	X	No
Max. measuring range		30 m
Customer-specific adjustment		No
Address setting		No
Application-specific settings		No
Linearization		No
Operating instructions		DE - German
Number of operating instructions		1
Measurement loop identification label		Without
Min. process pressure in bar		-1
Max. process pressure in bar		2
Customs tariff number (HS code)		90261029
