www.weidmueller.com

We have added the new three-wire installation terminal series with the PUSH IN direct-insert connection system to our already extensive range of modular terminals. They are especially suitable for power distribution in building installations, and wiring is made very convenient with the Roof Style terminals. The technical data clearly demonstrate this:

Featuring the performance specifications of a 4 mm<sup>2</sup> terminal with the smaller size typical of a 2.5 mm<sup>2</sup> terminal.

**General ordering data**

Type	PDL 4 S/L/L/PE
Order No.	<a href="#">1837040000</a>
Version	P-series, Installation multi-tier terminal, Rated cross-section: 4 mm <sup>2</sup> , PUSH IN, Direct mounting
GTIN (EAN)	4032248419739
Qty.	50 pc(s).

**SSCH**

In the switching facilities and controllers, the N conductor may need to be merged with the PE conductor at a central point. For this reason, busbars are available that allow a wide range of cables to be connected within a confined space (up to 70 wires on one metre of rail). The cables are connected via a compression piece or a clamping yoke. For the first variant there is no need to bend the lugs. A guide lug at the compression piece grips into the busbar and holds tightly to the compression piece. The clamping yokes can be moved on the busbar and adjusted to the whole wiring in the facility. The busbar can be used without holes in various lengths. The rail holding clamp SH is used for fastening. On longer rails, it can also be aligned between clamping yokes.

**Accessories**
**Blank**

WS markers are the perfect match for the W-series connectors. Thanks to their system compatibility, the WS tags can also be used with the I-series and the Z-series. The large marking surfaces do not only permit long character strings but also multi-line text. WS markers are ideal for labels with long, customised character strings. Thanks to the proven MultiCard format, printing with laser printer, PrintJet ADVANCED, plotter or MC-Mobilo is possible.

- Can be fitted in strips or individually
- Markers in proven MultiCard format

**Accessories**
**Blank**

The Dekafix (DEK) marker is the universal marker for all conductor and plug-in connectors as well as for electronic sub-assemblies. The system is ideal for short number sequences and covers a wide range of ready-printed markers.

Strips for fast installation in only one work step. The printing is easy to read, rich in contrast and available in various widths.

- Large range of ready-to-use markers
- Strips for fast installation
- Connector markers, suitable for all Weidmüller cable connectors
- Available as blank MultiCard or with standard printing
